

APPENDIX A - EXPERT ACCESS / RESET DEFAULTS CODE

To initiate install access permission (3.3.1.1.1) or reset system defaults (3.3.1.3.1) the user must enter the five digit code:

42458

To initiate super-user access permission (3.3.1.1.1), the user must enter the five digit code:

20261

These codes have been printed in this appendix only so that management may choose to remove the information to eliminate the possibility of inexperienced users incorrectly programming the RC3000. USE CAUTION!
